

Warranty:

All speedometer watches are guaranteed for a period of 24 months from the date of purchase.

The International Tachometer Watch Guarantee covers material and manufacturing defects that exist at the time of the purchased watch.

The warranty may be enforced by the completed guarantee certificate dated with date of purchase.

Upon presentation of the valid warranty certificate during the warranty period, you have the right to have any defect repaired free of charge. If repairing your watch does not restore the normal use of the watch, the Tachometer watch will guarantee that it will be replaced by a speedometer watch with the same or similar features.

Not covered by this manufacturer's warranty are: - the life of the battery; - normal signs of wear and tear, such as scratched glass, changes in the color and / or material of the watch straps and non-metallic chains such as leather, fabric and latex, peeling off the metal coating); any damage to parts of the watch caused by improper / improper use, improper handling, negligence, mishaps (beating, denting, broken glass, etc.) incorrect use of the watch, - damage resulting from working on the watch of not authorized persons (eg battery replacement, service or repairs).

Service:

Of course, as well as after the warranty period, we offer a service for our watches.
